

AQUATIC 203 H203D

DAB+ / FM-RDS
Waterproof Radio

DAB+

If you have an Aquatic 203 you can listen to radio around or in the water. For example taking a shower, relaxing in your jacuzzi or at the swimming pool. This DAB+ radio with its build-in 2 watt water resistant speaker is water proof up to JIS7, which means, even when you drop it in the water, it floats and keeps on playing! The emergency buzzer and build-in LED flashlight helps your friends find you on a dark beach, or when you're floating in your rubber boat for too long.

With the 8 station presets (4 DAB, 4 FM) your favorite stations can quickly be stored and with the large easy to read illuminated 3 line display with easy to use menu structure you can see and find all needed information such station name and info, time and the battery indicator. A wall-mounting bracket keeps the unit securely in place while a shoulder carrying strap can be used to conveniently move it from place to place. You can also use double-sided adhesive squares to keep the radio firmly attached to your shower wall.

- 10 station presets (5 DAB+, 5 FM)
- Information display for service data
- Manual / Search tuning
- Menu - selection of major functions
- Easy to read LCD display with backlight
- Automatic station search
- Lock switch
- Plays on rechargeable and dry-cell batteries
- Rechargeable battery facility with charging LED indicator
- USB B type socket for software update

• EAN-code: 47.11317.99246.4 (White)

DATA:

Dim. Unit : 235 x 140 x 56 mm (WxDxH)

Net / Gross Weight : 5.7 / 6.4 (kg)

Container quantity :

20' ft : 3060 (pcs)

40' ft : 6300 (pcs)
